GOAL

Our objective at Bartman is to establish our own market based on the \$BartMAN token where we can maintain our market price at the first two months for all. Most importantly, game outcomes will be burned in order to support our chart. For instance, if the game's outcome was \$1,000, 1% of its token supply will be burned.

REWARDS PROGRAMME

We at BartMAN have thought of the best approach to reward the holders of our jewels. By just holding our token for a certain amount of time, the holders of diamond hands will receive benefits under our special rewards system. For instance, if you possess over 1% of the bBartMAN Token, you will be rewarded each week with \$10 BUSD just for holding onto our token.

It's interesting to note that the reward keeps doubling every week. For example, in week one, if you keep your tokens without selling them, you will receive \$10 more

that week, \$20 the following week, and \$40 the week after. If you hung on to your \$BartMAN token for 8 weeks, you might win up to (\$2,560). Also By competing against other players in our game and starting from the top of the scoreboard, you can win up to \$BUSD \$500 weekly just for playing. In future, we will also have additional pleasant surprises and rewards which one can just imagine for.

NFT

The non-fungible token, or NFT, is gaining attention primarily in relation to the sale of expensive digital artworks. But what are NFTs exactly? NFTs are essentially transferable, digital goods. NFTs can be accessories for your avatar, a soccer player's virtual trading card, a digital music collection, or even a screenshot of your very first tweet.

NFTs have two crucial properties. The first is that each one is distinct and non-fungible, as their name implies, making them irreplaceable. They vary from crypto-currencies in this way. The fact that each NFT has a distinct owner is the second important attribute of NFTs. As a result, if you purchase an NFT today and sell it tomorrow, the transaction will be recorded on a blockchain and, in theory, be traceable by anybody in the world. We would provide you with a special in-game skin if you purchased BartMAN NFTs. where, in addition to numerous unexpected benefits, you will earn one free ticket in our weekly tournament.

TICKET MARKETPLACE

In our ticket marketplace, you'll have the opportunity to compete against other teams for a chance to win up to \$1,000 each week by advancing both personally and professionally. Each ticket is \$30; the more tickets you purchase, the greater the discount.

For illustration:

1= \$30 5=\$140 10=\$280 15=\$400

Three different competition kinds will be held each week by BartMAN: duos, squads, and the winners. The champions of the squad competition will compete against the duo tournament winners. Only two 2v2 squad teams would be selected to compete in the finals, struggling to take \$300 more. Unexpectedly, all of the BartMAN tournament bouts will be broadcast live on our telegram group, allowing you to follow and watch your favourite players.
